

Dear Member,

Prescription benefits shouldn't be confusing, exhausting, or unaffordable. Judi Rx was built to simplify purchasing medication. They believe in price transparency, because their only fee is one flat rate.

Medication purchases are simplified through their member app which displays real time prices at your local pharmacies! With over 62,000 participating pharmacies and 6,000 covered medications, Judi Rx offers a wide range of coverage. Judi Rx is not insurance, but a prescription savings plan.

How Judi Rx works:

1. **Present Your Member ID Card**

The back of the card has all the information your pharmacy needs to process your prescription at a discount rate. Use the QR code to reveal real time prices of your prescription at locations near you.

2. **Pay for the Medications**

Members must pay for the medications at the time of purchase. Brotherhood will receive a report from Judi Rx regarding your purchase.

3. **Reimbursement for Eligible Purchases**

If the expense is eligible for sharing, and the member's Annual Unshared Amount (AUA) is met, Brotherhood will reimburse the member for pharmacy purchases.
